

# TECHNICAL ANALYSIS

**Complete Series**

---

**Lesson : 1**

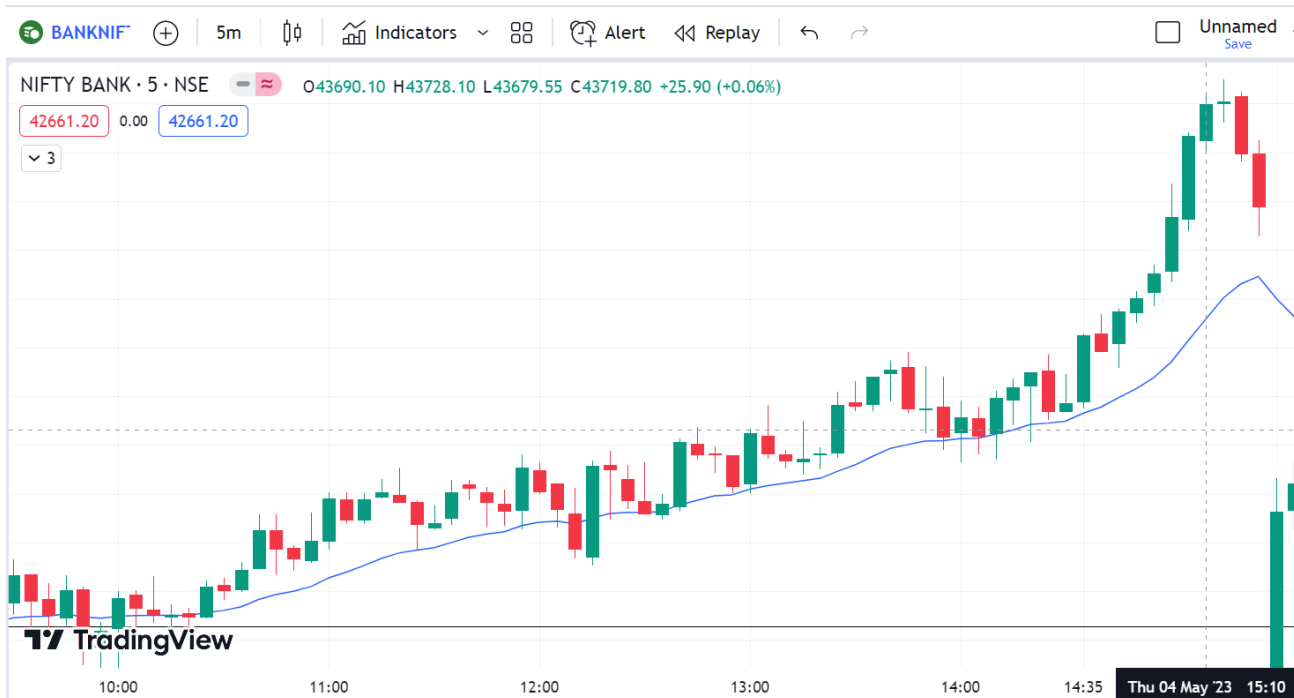

## Technical Analysis Basics

# 1. What is Technical analysis ?

In technical analysis we study charts .

We study chart patterns for trading

We study the Trend of the market uptrend , downtrend or sideways

## 2. Technical VS Fundamental analysis

In Fundamental analysis we study the account related information  
We study balance sheet  
Company financial statements to know the intrinsic value of stock.

In Technical analysis we study the chart , chart patterns , support and resistances for trading purpose.

## 3. Technical Analysis Key Assumptions

1. Market discount all the information.
2. History repeat itself
3. Price moves in trends
